THE MISSIONARY MASSACRES

China, Frightened by British Gun Boats, Has Accepted Salisbury's Ultimatum.

Whittington's Successor—Legation Attaches Don't Patronise Home Industry.

London, Sept. 30.—The Westminster Gazette this afternoon publishes a column interview with Rev. Mr. Milburn, the blind chaplain of the United States senate, who is drawing large crowds to the various chapels in London where he has ben requested to preach.

It is announced that China has accepted the British ultimatum, and the viceroy of Szechuan, who is held to have been responsible directly or indirectly, for the massacre of missionaries in the territory under his jurisdiction, has been degraded.

This has been confirmed by officials of the foreign office who stated that a decree has already been published in the Peking Official Gazette ordering the viceroy of Szechuan to be stripped of his rank for failing to protect the missionaries in his district, as a warning o others. It is further directed that he shall not again be permitted to take office. The decree also denounces offending subordinates for failing to take the proper action in such an emergency.

The News to-night expresses itself editorially as being indignant at the fact that Mr. Hugh Paget, attache of the British legation at Washington, has ordered a two and a half rater, 27 feet long, having a fin of bronze, from the Herreschoffs. Commenting on the subject, the Evening News also remarks: "The corps of attaches is abundant, we might find better than this Yankee-smirched one."

London, Sept. 29.—Lt. Col. Sir William Wilkin, Kt., has been elected Lord Mayor of London, to succeed the Right Hon. Sir Joseph Ranals.

INDIGNANT AT SPAIN'S ACTION

In Landing Searching Parties on United States Territory.

Key West, Fla., Sept. 30.—Great excitement and indignation have been occasioned here by the report that a body of marines from the Spanish cruiser Conde de Venidito have been landed on Florida Keys, north of here, in search of filibusterers. This is considered an outrage here, a gross insult to Florida and the United States, as the Keys belong to Florida, and if Spain has the right to land searching parties on the Keys, she has also the right to land marines on the mainland. The insult is considered to be outrageous, as the Conde de Venidito party searched the homes of the citizens of Key West. The state department at Washington will be asked to investigate the matter and demand an apology from Spain forthwith. So much indignation has been aroused here that it is feared the Spanish consul may be openly insulted.

A DETERMINED GOVERNOR.

Is Mr. Culberson, of Texas—American Cricketers Victorious.

Austin, Tex., Sept. 30.—Very few legislators have shown up and a full quorum has hardly been on hand to-day. The sentiment of members heard from continue favorable to the plan of immediately passing a law making prize fighting a felony; all indicate a desire to prevent the Dallas fight. Governor Culberson in his message will recommend a most rigid law, and will urge its immediate passage with an emergency clause. It is intimated that he may recommend a law making gambling also a felony. He will lay other matters as well before the legislature, which will probably be in session about 30 days.

Chicago, Sept. 30.—Yesterday's storm on the lake was one of the most violent and destructive in recent years. No less than eighteen vessels have been reported stranded at various points, and reports continue to be received of others flying signals of distress. At Milwaukee, the schooner Condor is long overdue and grave fears are felt for her safety. Thirteen persons narrowly escaped drowning when the steam barge Kershaw went on the reef at Chicley beach, breaking completely in two, five steamers are aground near Detroit, and the barge R. J. Henry went to pieces on the docks near Sault Ste. Marie. Several vessels lost their deck cargoes and were stripped of canvas, steering gear, etc.

Denver, Sept. 30.—A genuine Mexican bull fight was announced to take place at the Denver Wheel Club park on Saturday, and 2,000 people assembled to enjoy the sport. Several bulls were turned loose in the arena where Arizona Charlie and several cowboys began an exhibition of lassooing. The men were immediately put under arrest by the police, and the audience dismissed without having seen anything resembling a bull fight.

Pittsburg, Sept. 30.—The executors of Frank Lenz, the bicyclist who started to wheel around the globe, have received affidavits which circumstantially prove the murder. It appears Leuz was slain by the natives of Tschefkin, who thought his wheel was made of silver.

Washington, Sept. 30.—At the Eucharistic congress of the Catholic church, which will convene in this city on Wednesday, some of the most distinguished dignitaries of the church will be present. The sessions will be held in the Catholic university. On the occasion of the opening of the congress, pontifical high mass will be celebrated, of which Mgr. Satolli, the papal ablegate, will be celebrant.

Cricket Grounds, Haverford Pa., Sept. 30.—The concluding day's play in the third international cricket match between the Gentlemen of Philadelphia and the representatives of Cambridge and Oxford, began at 11 o'clock to-day. When stumps were drawn on Saturday the Americans led the Englishmen by 157 runs. The latter scored 198 in the first innings and 49 in the second for the loss of two wickets. The Americans put together the remarkable score of 404 runs in their first innings, so that it was hardly probable that the Englishmen could make enough runs to compel the Americans to go in a second time. This proved to be the fact, the home team winning by an innings and 30 runs.

Washington, D. C., Sept. 30.—President Cleveland's order retiring Lieut.-General Scholefield was issued to-day.

MORE "ACCIDENTS" IN ORDER.

Now That Grouse and Pheasant Shooting is Legal.

The open season for grouse and sock pheasants commences to-morow, and the woods, during the rest of the week, will no doubt be full of hunters. Numerous parties have been organized, the objective points being Salt Spring Island. Birds were reported plentiful a few weeks ago, but it is now almost too late for blue grouse, they having gone to the mountains, and despite the law to the contrary, pheasants have been killed in large numbers. It would have been much better if the season had opened earlier. As it is, those who observed the law get very poor sport, after the non-observers have had the field to themselves for several weeks.

Now that the season for trout fishing is drawing to a close, October 15th being the last day, anglers are making a few farewell casts over their favorite pools. Some fair catches were made in the Cowichan river yesterday. One gentleman killed 103 fair sized fish on Saturday and Sunday, and other good baskets are reported. The Koksilah river and Shawnigan lake also rewarded fishermen who spent the day at those places.

WAITING ON MANITOBA.

The Cabinet Undecided About a Session Till the Prairie Provnice Answers.

Pauncefote's Visit Postponed—C. P. R. Receipts Increased—New Commander Arrives.

Ottawa, Sept. 30.—Thanksgiving day has been set down for Thursday, Nov. 21.

The question of the date of the meeting of parliament has not been considered by the cabinet, but may be settled within a week or two. Some of the ministers are anxious for a November session, but the decision is contingent on Manitoba's reply to the school question.

The name of Justice Killam is mentioned in connection with the prospective vacancy on the Supreme court bench. Judge Gwynne will, however, sit during the term commencing to-morrow.

The premier has been notified that Sir Julian Pauncefote has cancelled his visit to Ottawa for the present.

A big delegation was in the city today from South Ontario and had an interview with Messrs. Bowell and Carou, asking that Wm. Smith, M.P., be appointed minister of agriculture. They pointed out the necessity of a practical farmer being at the head of the department. Premier Bowell said there was no vacancy in the cabinet for Ontario, and that the vacant portfolio would have to go to Quebec. He said he would lay the matter before his colleagues and see what could be done. The portfolio would be filled, he said, before parliament met.

Aulay Morrison, of New Westminster, is in the city on business with the department of justice regarding the Fitzsimmons case against the Columbian.

Winnipeg, Sept. 30.—The sculling race at Selkirk Saturday between Hackett and Murphy, was easily won by Hackett in the slow time of fourteen minutes. The course was two miles with a turn, for a purse of $250.

Montreal, Sept. 30.—The net profits of the C. P. R. in August were $647,377, being $72,121 more than August last year. The net profits for the eight months ending August 31st were $3,744,228 which is $403,473 more than for the same period last year.

Comber, Ont., Sept. 30.—The Commercial hotel and two general stores, owned and occupied by A. M. Aubin and A. Dupuis, were destroyed by fire on Saturday night. Nothing but wearing apparel was saved at the hotel, the inmates escaping in their night clothes. Loss on the building and stock amounts to $6,000.

Quebec, Sept. 30.—Four schooners which left here the first week in July to save the cargo of the wrecked steamer Mexico, on Bell Isle, are given up for lost or are thought to have been captured by Gulf pirates. The steamer Okwasa, Capt. Carter, which sailed from Greenock Sept. 7th, for this port, is now overdue.

Col. Gascogne, the newly appointed commander in chief of the Canadian militra forces, arrived yesterday on the steamer Parisian and was received by the local corps.

HE COMMITTED SUICIDE.

Body of Samuel Ricketts Found Hanging to a Tree.

Yesterday afternoon a young man, Francis, found hanging from the branch of a stump, near the Prospect Lake road, the body of Samuel Ricketts, the old man who had been missing since the 11th of September. The old man had taken a halter from Mr. Robert Porter's stable, and with this he had hanged himself. His feet were within two or three inches of the ground.

Undertaker Hanna brought the body to the city, and this morning Coroner Crompton held an inquest in the provincial police court. Charles Porter was the most important witness, and as a result of his evidence, the jury, of which R. Erskine was foreman, brought in a verdict that Ricketts hanged himself while laboring under temporary mental depression. Mr. Porter stated that Ricketts had been worried a great deal over the fact that he had paid his partner $500 partnership in a farm on the Prospect Lake road. He fretted a great deal previous to his disappearance and would walk up and down the room continually. For some time he had been taking his meals at Mr. R. Porter's residence. On the evening of Sept. 11 he had his supper there, and when he was leaving Mrs. Porter asked him to come to breakfast in the morning. He did not come, and feeling uneasy Mr. Porter had a search made for the old man. He could not be found and the conclusion that he had committed suicide was arrived at. The body was found within half a mile of the farm on which Ricketts had resided for many years.

Deceased was upwards of 60 years of age and was well known in the district where he resided. He was always considered well to do. By a will which he left he bequeathed all his property to a sister residing in England. Mr. Porter is the executor.

DEAT HOF PASTEUR.

The Eminent Bacteriologist Succumbs to Paralysis on Saturday.

Paris, Sept. 30.—Prof. Louis Pasteur, the eminent bacteriologist, died Saturday evening at 5 o'clock at Garchea, near St. Cloud, in the environs of this city. Prof. Louis Pasteur has suffered from paralysis for a considerable period of time. About eight days ago he sustained a violent paralytic stroke and yesterday suffered still another stroke. He grew rapidly worse and remained in a comatose condition during his last hours. It is believed that the funeral of M. Pasteur will be a national one.

BRITISH ULTIMATUM TO CHINA.

Must Degrade Szechuen Viceroy in 14 Days, or Admiral Will Act.

Peking, Sept. 30.—The British ultimatum in the matter of the Szechuen riots has just been issued. Within fourteen days an edict must be issued degrading the viceroy of the province, otherwise the British admiral commanding will act.

The American commission, consisting of the consul at Teintsin and the naval officers, accompanied by Chinese soldiers and interpreters, are starting overland.

The viceroy pays the French an indemnity of 940,000 taels.

Li Hung Chang has been appointed a commissioner to negotiate a new commercial treaty with the Japanese.

AMERICAN WORKMEN SUPERIOR.

To Any in the World—Are Better Paid and Quicker Workers.

New York, Sept. 30.—Sam Gompers, ex-president and P. M. McGuire, vice-president of the American Federation of Labor, who left here on August 14 to attend the Trades Union Congress at Cardiff and to make an especial study of labor questions in European cities, are home again. They came over on the New York of the American line, and this afternoon at the Broadway Central Hotel related their experiences while abroad.

Mr. Gompers said: "I was surprised at the great growth of trade unionism in Britain. The workers over there are coming together more and more every year; and their interests are advancing correspondingly." "Yes," said Mr. Gompers, in reply to a question, "There is no workman in the world equal in energy and in the possession of the comforts of life, of the American workmen. He is superior to the English, French, and German workman. He has longer hours generally, but he is almost invariably better paid, and spends more in living than the average European laborer does. On the continent factional and political differences have impeded the progress of the laborer. In France, Germany and Belgium the workmen had the right of coalition, but lost it by coquetting with politicians. French labor is behind the age in many things. I went through the government cigar manufactory in Paris. Being a cigar maker myself, I was deeply interested in all I saw and made a note of what impressed me favorably. Modern machinery was wanting, and neither in quality nor makeup of goods, may France be compared to America. We are faster people in every way, and where operators in the textile factories at Manchester are limited to four machines, an operator in Lynn runs eight. In England they recently appointed a commission to examine into the causes of industrial depression. Labor was blamed as being the chief factor. The commission soon learned that capital, which had neglected the opportunity of getting the best machinery, was to blame. The average British worker does not care to work very fast. Take one of our big buildings for instance. Here the contract requires it to be finished in three months, over there one and a half years are allowed."

"The labor movement in Great Britain, however," said Mr. Gompers, "stands well; it has the patronage of many great and wealthy persons, notably the Earl of Shaftsbury and Lady Charles Dilke, whose husband represents a constituency in the House of Commons, and who is well known. We met all classes of labor abroad. We wanted to get all shades of opinion, and listened as readily to the Radicals, the Socialists and the anarchists as to the most conservative.

FIFTY-TWO CHOLERA DEATHS.

But the Disease is at Last under Control in Honolulu.

Honolulu, Sept. 11.—(Per barkentine S. G. Wilder to San Francisco).—Seventy-two people have been attacked by cholera since the plague broke out, and of that number 52 died. But two white people were among the victims. During the last 48 hours but one new case has developed. It is believed that the disease is now in check, and that it is only a matter of a few weeks when it will be totally eradicated. A citizens' sanitary movement has been started, and already shows good results. A house to house inspection is made twice a day, and all suspicious cases are sent to the hospital. It has been demonstrated that the natives will not report cases of sickness; they appear to be afraid of white doctors, who they claim will kill them. They are a very unsatisfactory race to do anything for; they do not seem to appreciate anything that the whites do for their welfare.

As a result of the almost total suspension of business many Hawaiians are out of work, and there appears to be real distress among them. A relief station has been opened, at which all natives may secure supplies of food and raiment. The business men have supplied a large amount of money.

There is still doubt as to the real nature of the scourge. The majority of the medical men agree that it is Asiatic cholera, but there are some who maintain that it is a purely local disease. Many of the cases have been traced, and without exception the practice of eating raw fish has been responsible for the sickness. The fish in the harbor are believed to be poisoned, and the sale of them is prohibited.

The quarantine by the other islands is still maintained against Honolulu. Three steamers will be sent to-day with freight and passengers, but it is not believed that they will be allowed to land. Provisions are growing short outside of this city, and it is believed that steamers will be chartered at San Francisco to load for Hilo, on Hawaii, and Kahului, on Maui.

MINNIE WILLIAMS' MOTHER

Flees from the Notoriety and Sensationalism of the Durrant Trial.

Tonawanda, N. Y., Sept. 30.—Mrs. Williams, the mother of one of the girls whom Theodore Durrant is accused of murdering at San Francisco, has been staying here for several days, the guest of Mrs. Stryker. She came here to get away from the sensational scenes attending the trial of Durrant. She has kept aloof from everybody and refuses to see visitors. She still broods over her daughter's fate, and passes most of her time weeping. To-day she went to Niagara Falls to spend some time with another relative.

San Francisco, Sept. 30.—The Examiner says that a microscopic examination of the roll call of Cooper Medical College shows that there has been an erasure opposite Durrant's name. It is customary to mark an X opposite the names of students who have been reported present, and A when they are absent. The mark opposite Durrant's name cannot be clearly distinguished, but it looks more like an A than an X.

THE FRANCO-RUSSIAN ENTENTE.

French Effusiveness to Russia's Representatives Angers Germany.

Berlin, Sept. 30.—Prince von Hohenlohe, the German imperial chancellor, has abandoned the attempt to secure a majority in the Reichstag through the aid of Centrist votes. The Centrist party furnished ample proof last winter of being both irreconcileable and unreliable. Prince Bismarck's advice on this point is said to have changed his opinion to that which Prince von Hohenlohe formerly held. Negotiations are now on foot between the factions of the Conservative party and the National Liberals to secure concerted action throughout the next session of the Reichstag on the most vital of the government measures. This movement, which is most certain to succeed, will give the government a more stable majority than ever Chancellor von Caprivi had.

Among the principal government measures which will be introduced at the coming session of the Reichstag are reforms of the Bourse, for the protection of mechanical trades against dishonest competition, for the relief of agriculture, for the federation of husbandmen. In preparation for the two latter measures, facts are being collected throughout the empire bearing on the subject of agricultural depression, which will be laid before the Reichstag. The government does not intend to introduce any new taxation bill at the approaching session.

Among those who have been arrested in connection with the discovery that secrets regarding the national defense were being sold to the French, is a former Bavarian army officer, Ludwig Pfraffer, in whose rooms in Berlin were found models and drawings of German defense works and letters from the French military bureau. Altogether some fifteen arrests have been made. The persons accused will be tried at Leipsic. The drawings and models seized are for the most part descriptive of the new heavy ordnance and plans of fortifications, but three letters found are reported to have contained instructions for the war department at Paris.

The relations between Emperor William and Prince von Hohenlohe are so strained that it would not be surprising if there should be a new incumbent for the Imperial Chancellorship before the expiration of a year from the date on which the prince was appointed to the office, which will be on Oct. 29. The visit of Prince von Hohenlohe to St. Petersburg in the early part of this month proved unfortunate for him officially, however it may have resulted peculiarly. It was alleged at the time that the Chancellor's errand, while primarily of an official nature, was also personal, Prince von Hohenlohe desiring to obtain permission from the Czar that his wife might hold the estates in Russia of her deceased brother, Prince Sayn-Wittgentein, which are said to be worth 50,000,000 marks. The advances which the German Imperial Chancellor made on this occasion to the Russian government were more favorably received than were others which had preceded them, and the fact that under such circumstances Prince von Hohenlohe should have asked a personal favor of the Czar, has, according to current report, greatly angered Emperor William. In this connection it may be added that the effusiveness of the exchange of compliments between Prince Lobanoff, the Russian minister of foreign affairs, and General Dragomiroff on the one side, and President Faure and the French ministers and army officers on the other, at the recent army manoeuvres in the Vosges, have not softened the feeling of Emperor William toward Russian, and there is indeed a decidedly strained feeling at present existing between the two courts and the two nations.

A JEALOUS WOMAN'S CRIME.

A Slighted Wife Visits Fearful Punishment on Her Rival.

Albany, Ore., Sept. 30.—Mrs. Lottie Hiatte is shot and fatally injured at her home near Scio, a small remote town in Lyen county. Mrs. John Hanna, 45 years old, mother of a family, donned masculine garb and false whiskers, entered the house of Mrs. Hiatte and shot her twice. The motive for the deed is attributed to jealousy, as she believed Mrs. Hiatte estranged the affections of her husband. The Hiatte family, together with Mrs. Elizabeth Holman, Mrs. Lottie Hiatte's mother, lived about a quarter of a mile north of Scio. On Thursday evening last their home was approached by a supposed man, who entered, drew a pistol, told the inmates throw up their hands and say where they kept their money. Mrs. Holman, aged 82, resented the intrusion, promptly seizing a billet of wood gave the intruder a rap on the face, but was instantly knocked down for her temerity. Having disposed of the aged woman, the supposed man began firing at Mrs. Hiatte, striking the unfortunate woman in the head twice. The robber to make sure, bent over the prostrate woman, shook her violently to ascertain whether she was dead or not. This act was witnessed by Mrs. Holman, who had just regained consciousness. The scoundrel fled and Mrs. Holman sought assistance. Several men hurried to the house and did all in their power to succour the stricken woman. There were found lying on the floor a hat, false moustache and a pair of eyeglasses. Someone present recognized the hat as the property of young Hanna and this precipitated a search for the man who was not found until this morning. When charged with the deed and confronted with his hat, he denied having done the killing, but admitted that the hat was his, declaring further that his mother borrowed it the evening before; for what purpose he did not know, remarking incidentally that she had not returned home until one o'clock in the morning. Searchers immediately sought Mrs. John Hanna, the boy's mother, who, under menacing inquiries, at last broke down and confessed that she had purloined a suit of her husband's clothes, her son's hat, and after donning them had done the deed. The robbery was only a blind for the real motive of the crime. The would-be murderer was turned over to the officers, and is now in jail, while her victim is still living, but beyond hope of recovery.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

A SUCCESSFUL FAIR.

The Cowichan and Salt Spring Exhibition Held at Duncan's on Saturday.

Fine Displays in Several of the Departments—The Winners of Prizes.

A perfect day, an excellent and admirably conducted exhibition, will always be remembered with pleasure by those who visited the fair at Duncan's on Saturday. On entering the main building the large exhibit of fruit impressed the visitor with the fact that he was in a district where excellent fruit is produced, the quantity and quality speaking volumes for the capabilities of the district. The rosy apples attested the number of sunny days with which the region is favored. The healthy appearance of the fruit and the freedom from fungus diseases and fruit pests attracted the attention of the connoisseur. A display such as was presented on Saturday should encourage those engaged in this pursuit, and stimulate the planting of new orchards in this district. A great deal of this fruit will again be seen at New Westminster, where it is pretty sure to obtain honors for its growers.

The vegetable classes were well contested and left nothing to be desired as to quality, size and varieties. In grains the exhibits were small in number and of fair quality. It is a surprise that this department did not receive more attention from farmers, as the prizes were well worth competing for. As no one but the judges were allowed to sample the butter, it might be rash to go too deeply into that article. A remark overheard from one of the judges may not be out of place—"That some of the samples were very good." To which must be added that some of the samples were very artistically prepared. An exhibit of fret work by Frank McLay, a lad of 14, is worthy of the highest commendation. It is a model of a locomotive, and the work shows patience and skill. The ladies' work was neatly arranged, and the fact that this department attracted the attention of a large number of fair admirers during the day, is conclusive proof of its excellence. The bread looked fresh and enticing, but as in the case of butter, sampling was prohibited, and so it is impossible to discuss "Cowichan bread and butter." The flowers shown were well grown, tastily arranged and very pleasing to the eye.

In the cattle yard the exhibits were uniformly good and in a fair condition, a dry summer notwithstanding. The dairy breeds predominated, and the Jerseys, both in the pure bred and graded, were well worth seeing. Comparisons are odious sometimes, but in looking at the dairy cattle shown on the grounds, and then at the butter in the building, one is struck with the fact that there is something lacking, and that is creameries. The word is given in the plural, as the district should be able to supply more than one creamery.

The sheep were particularly good. The expense of this portion of the prize list is assumed by the Vancouver Island Flockmasters' Association, and great benefits are accruing to the district from this association. If similar organizations for kindred purposes were organized in other agricultural communities in the province, the importation of food products from other countries to the province would soon cease.

If good roads mean good horses, Cowichan district is well supplied with both. The exhibit of horses useful to a farmer was good. A Percheron stallion shown is a magnificent animal, such as Rosa Bonheur would have loved to paint. The young animals shown prove this horse to be a grand sire. The saddle horse class was well contested, and gave the judges a hard half hour's work. Mrs. Skinner's horse capturing first honors. The hurdle-jumping afforded the spectators a great deal of amusement. Sometimes it was the horse that would not rise when he should, and sometimes it was the rider would rise when he shouldn't.

Prof. Finn's band was in attendance; the pieces played were tastefully selected and were appreciated.

About six hundred visited the exhibition, and one might almost imagine oneself in "Old England," once again. The sturdy Briton, his hearty greeting and his charming peculiarities, surrounded one on all sides.

The riding outfits were so varied and numerous it left one quite undecided as to which was quite "en regle."

To the president of the society, Major Mutter, M. P. P., to the secretary, Mr. G. H. Hadwen, and to the directors the visitors owe a vote of thanks for the courtesies extended and the pleasant day, which was thoroughly enjoyed by all who visited Duncan's on Saturday.

OUR WALKING HAT

is a winner. It's made the record of the season in the race for popularity. It's heads we win, and on a show of heads we win by a large majority. It's our hats everywhere for style, quality and value. The hat caps the climax of elegance and correctness in attire. It makes or mars everything. One of our superb examples of up-to-date headwear will make any attire just what it should be. Such hats as we show afford no ground for criticism, neither do our prices. To look prosperous and well dressed get a new hat.

EFFECT OF THE GOLD EXPORT.

But for Legislation America Would Be Importing Gold.

New York, Sept. 28.—The Evening Post's financial article says this morning: The weekly bank statement reported a reduction of $2,479,300 in specie and legal tender, against $7,564,700, decrease last week, and $3,821,800 in the week previous. This week's returns are decidedly less clear than those of a week ago. It should be recalled, however, that yesterday's $1,500,000 deposit of currency for export does not figure in the statement that yesterday's currency remittance remittance southward was exceptionally heavy. As a matter of fact, the banks sent out this week $3,000,000 more in currency than they received, while the $2,500,000 shipments and the heavy excess of payments into the sub-treasury have added materially to the outflow. But, however the unsatisfactory "average" statement of the clearing houses may have confused facts, a really significant feature remains in the $5,806,700 decrease in local lines. There is a shrinkage of more than eleven million within a fortnight, and though partly a book-keeping matter, it certainly is some excuse for a higher rate on money. It will be noticed from the comparison of weekly bank clearings that the country's use of credit, and hence of currency, is greater by nearly 31 per cent. than a year ago, and is well up to the level of 1890 and 1889. But for the arbitrary currency inflation of $152,000,000 since July 14, 1890, the wholly probable result of this month's interior activity would have been gold imports. To the intelligent and trained financial mind, this record of trade contraction for which the statesmen of the 51st congress were providing an arbitrary increase in the currency, is a pitiful instance of the attempt of demagogues to reverse the laws of trade.

The stock market to-day was dull but firm. There was some pressure against sugar and Chicago gas in the early dealings, causing fractional recession. The railroad list was practically neglected. Distilling exhibited marked strength and sold up ¾ per cent. to 25, the best figure yet attained for the certificates. In the final hour sugar received support and rallied 1⅛ per cent., the other markets recording light fractional gains. In the railway list the only noteworthy change was an early recession of ⅝ per cent. in C. C. C. & St. L., with a subsequent rally of 1¼ per cent. Tobacco displayed marked weakness in the final dealings and left off ⅛ per cent. lower, the general market quiet and firm. The light volume of business was considered to be very largely due to the absence of many operators from the market, both here and in Europe, incidental to the observance of the Hebrew holiday.

The Times' advertising columns are fresh and readable. This is the result of frequent changes and well-written and well-displayed ads. For that reason alone an ad. is of more value in these columns than in any other city publication.

But the Times has other and stronger claims. Its charges have always been moderate, and its constituency embraces all classes of the community. In fact there is no person in the city who is any person who does not read the Times.

Change of reading matter in standing advertisements must be received at the office before 11 a.m. of the day that the change is to be made. If not so received the change may not be made until the following day.

Readers of the Times are invited to consult its advertising columns. As a general thing it will pay them to deal with advertisers.

The Daily Times.

THE BRITISH FARMER.

In an article dealing with the revival of trade the London Times said in a late issue: "British agriculture in the meantime holds on the melancholy, though far from noiseless, tenor of its way. Boom after boom enlivens Capel-court, one industry after another acknowledges revival, but a settled gloom broods over every report of the condition of the British farmer. . . . Yet in the townsman's excursions to agricultural districts he does not discover the universal ruin and decay he has been led to expect. On the contrary, he finds evidences of comfort, ease, and even luxury in the homes of these lugubrious agriculturists. He finds, too, a sturdy contempt for the troublesome new-fangled ways by which foreigners have built up great agricultural industries which undersell our farmers to the tune of millions a year in their own markets. Observing these things, he may be pardoned if he comes back to town with a feeling that bad seasons, falling rents, and derelict farms are evils which might be greatly mitigated if farmers were stimulated by their misfortunes to bring increased energy and resource to bear upon the business of production." In our columns some time ago the opinion was mildly expressed that in considering the position of the British farmer two circumstances must be taken into account. "One is the excessive rental which the farmers in the larger portion of the country must pay. The other is the social position of the average English farmer, whose business is conducted on entirely different lines from that of the agriculturist on this side of the Atlantic. The average English farmer would feel outraged if he were required to work in the field as nearly all Canadian and American farmers do; he looks upon himself as a capitalist who should be able to pay others for the work necessary on his farm." These sentences evoked a wrathful splutter of condemnation from the Colonist, which seems to think itself in duty bound to take the British farmer under its wing. We are waiting, then, with somewhat anxious curiosity the Colonist's opinion on the quotation we have made from the the London Times. What does it think of the "evidences of comfort, ease, and even luxury," of the "sturdy contempt for new-fangled ways," and the suggestion that British farmers might better their position by "increased energy and resource?" We expect nothing less than to see our big namesake utterly annihilated.

THE THEOSOPHIST'S HEAVEN.

A State of Mentality, Unhampered by by Physical Conditions.

At the public lecture delivered at the Theosophical Society's hall, Broad street, last evening, the subject being "The Heaven World," amongst other things, it was said: "The Heaven world is a state of mentality unhampered by physical conditions. It is a dream state when regarded from the point of view of physical life as a reality, but if regarded from the plane above, i. e., the spiritual plane, it is illusory. It is but an interlude or period of rest between two lives of physical conditions. But it must not be considered as being above our heads or in any particular place, for the mind is its own place, and if the term higher world be used, it is not higher by reason of its location, but because of its superior quality or essence. We can realize the illusions existing both on the physical and mental planes by glancing back over our past. As we emerged from the nursery we threw away the toys that delighted our infancy, and became interested in other gew-gaws. Things that engrossed us wholly during youth had no attraction for us as we grew older, and so on. But always the particular attraction was the one reality, until it was discarded for something higher. That which goes into the Heaven world is the dream or essence of the last personality (the more human as distinct form animal) attributes of Brown, Jones or Robinson, our attitude of mind here dimly foreshadowing the conditions that will become in that higher state, where the aspirations of earth life will be assimilated and harvested as realizations. The soul of him who was a great musician will bathe in celestial harmonies, and all his chords will pulsate with ecstacy; the artist will realize the glories of shade and color, and 'race the most vivid and idealistic imagery; the patriot who strove to raise his conquered country from the dust will see that country shake off her thraldom and take her place amongst the nations, free and great. He whose life was engrossed with family ties and affections will have his family with him—in his mind's eye—for if they be still upon earth, or have evolved nothing to take them into the higher state, to him it will make no difference, they will all be there in his mental picture. And according to the esoteric philosophy their presence will to him be more vivid than when he was with them upon earth." And so on.

D. R. KER'S TRIP.

His Company Erecting a Cereal Food Mill at Edmonton.

D. R. Ker, president of the British Columbia Board of Trade, returned last evening from Edmonton, N. W. T., where the Brackman & Ker Milling Co., of which he is managing director, are erecting a cereal food mill, similar to the one owned by the company in Victoria. The mill is of the same capacity as the Victoria mill, and will be ready for operation in about six weeks, in time to handle this year's crop. The object of the company, which besides the mill in Victoria, has one in New Westminster and branch stores in the Mainland cities, in erecting the new mill at Edmonton, is to enable them to control the cereal food trade of the whole of British Columbia and most of the Northwest Territories. They found that with the Victoria mill alone they could not successfully compete in the Kootenay country with the millers of Spokane. With the Victoria mill in the far west and the Edmonton mill east of the Rockies, the company will be enabled to do this successfully. They will have many advantages. In the first place the country around Edmonton is one of the best oat countries on the continent. Eight car loads were brought to Victoria last year and tried in the company's mill here. They were found to be similar to the oats grown around Victoria, which are hard to beat. Then the company will have the advantage of very cheap coal. The mill is built on the banks of the river, along which are croppings of good soft coal, which can be placed in front of the boilers for 50 cents a ton. Mr. Ker believes that by sinking their well, under the mill, thirty feet deeper the company would strike a good ledge of coal. The company have, however, still another advantage, and it is far from being an unimportant one. They have been successful in making satisfactory arrangements with the C. P. R., whereby they will be enabled to place their goods in the stores of the Kootenay merchants just as cheaply, if not more so, than the Spokane millers can. The C. P. R. are anxious to secure the Kootenay trade and are assisting the company in every way possible.

Mr. Ker, who started from Victoria with the Board of Trade excursionists, is greatly pleased with his trip and thinks that what the excursionists report will do much to stir Victoria merchants to make a strenuous bid for the Kootenay business.

A SUSPICIOUS CASE.

Sick Man on the Straits of Sunda Thought to have Cholera.

There was quite a little stir in health official circles this morning over a supposed case of cholera on board the big British tramp ship Straits of Sunda. The steamship arrived here last night, 21 days from Hakodate, Japan, and at midnight Dr. Geo. H. Duncan, medical health officer, went aboard to inspect her. Capt. John Dewan reported all of his crew to be well, but when the doctor came to examine them he found a man who was quite ill. His pulse was 110, his temperature 102, and he complained of cramps and pains in the back. Such he said had been his condition for 24 hours. The Sunda was at the time lying off the outer wharf and Dr. Duncan ordered her to William Head, repeating an order that had been previously given by Dr. Macnaughton Jones but disregarded as there were no passengers aboard. At William Head this forenoon Dr. Jones examined the man and pronounced his illness of trivial nature. He inspected the ship and permitted her to depart after a very short delay. The Sunda ran to Esquimalt and docked at once. It was for the purpose of being docked and cleaned preparatory to loading lumber at Port Blakely for South Africa that she came here. It is understood that her officers say the man is feigning illness to get ashore.

Dr. Duncan said that the case excited his suspicion, and he believed that the man should have been landed where the case could be watched for a few days and the ship fumigated. It was the doubtful cases, not the sure ones, that caused trouble. Then the vessel was in ballast and had no passengers, and a little delay would have done no harm. He conferred with Dr. J. Davie, chairman of the Provincial Board of Health, who commended his action.

The dock was pumped out at noon and the ship will be speedily cleaned and painted.

—Victoria exhibitors at the New Westminster exhibition must have their entries at Shedden & Goward's office, Trounce avenue, by the 4th inst.

TELEPHONE NEWSPAPER.

It Has 6000 Subscribers and Has Been in Operation Two Years.

The telephone newspaper organized at Pesth, Hungary, has now been working successfully for two years. It is the only newspaper of the kind in the world, says the New York Sun. It is called the Telephone Hirnondo, or Herald, costs 2 cents, like a printed paper, and is valuable to persons who are unable or too lazy to use their eyes or who cannot read. It has 6000 subscribers, who receive the news as they would ordinary telephone messages. A special wire 168 miles long runs along the windows of the houses of subscribers, which are connected with the main line by separate wires and special apparatus which prevents the blocking of a system by an accident at any one of the stations. Within the houses long flexible wires make it possible to carry the receiver to the bed or any other part of the room.

The news is not delivered as it happens to come in, but is carefully edited and arranged according to a printed schedule, so that a publisher at any time knows what part of the paper he is going to hear. It begins with the night telegrams from all parts of Europe. Then comes the calendar of events for the day, with the city news and the list of strangers at the hotels. After that follow articles on music, art and literature. The staff is organized like that of any other newspaper, and is on duty from 7:30 in the morning until 9 o'clock at night. After the copy has passed through the editor's hands, for the paper is subject to the same restrictions as ordinary newspapers and is liable for its communications, it is given to the "speakers." These are ten men with strong voices and clear enunciation, who work in shifts of two at a time and talk the news through the telephone. There are 28 editions uttered a day. Additions to the first edition are announced as news items.

To fill up the time when no news is coming in the subscribers are entertained with vocal and instrumental concerts. These were at first given for them especially in the office of the Hirnondo, but now the wire is in communication with the opera house and the music halls, and on Sundays and feast days with the churches. The music is transmitted at times to other places in Austro-Hungary, and recently the Hirnondo microphone was conducted with the circuit going from Trieste through Vienna, Bremen and Pesth, to Berlin, the music being heard in all these places with equal clearness and force. The happy Hungarian can lie abed all day and hear everything that is going on in town.

LAW INTELLIGENCE.

An order was made this morning by Chief Justice Davie that the skins on the seized schooner E. B. Marvin be released on deposit of security satisfactory to the plaintiff, and that the defendants be at liberty to inspect the seal skins that were seized and which are now sealed up in the plaintiff's possession. H. D. Helmcken, Q. C., appeared for the defendant and A. P. Luxton for the plaintiff.

Rithet & Co., Limited, of Victoria, B. C., are the principal owners. Representatives of the firm have purchased of William Graham 28.10 acres for cannery uses, the consideration being $1,200 They will be constructed on the very best and latest improved methods, and will be enlarged from time to time as the business of the firm may justify. A large force of men will be put to work at once on the buildings, wharves and traps, and everything is expected to be in readiness for operation next year. The capital back of the enterprise is assured and unlimited.—Friday Harbor Islander.

—The three local companies of the B. C. B. G. A., under command of Lt. Col. Prior, M.P., paraded yesterday morning and attended divine services at St. Andrew's Roman Catholic Cathedral. There was a large turnout of the men and officers, and they presented a splendid appearance as they marched through the principal streets, between the drill hall and the church, headed by the band. At the church seats were reserved near the altar and pulpit for the officers, and in the gallery for the men. The church was crowded, many besides members of the congregation attending. Rev. Father Althoff delivered the sermon. It dealt with the life of St. Michael and was most appropriate for the day. The speaker was listened to with marked attention by all. The music was rendered doubly attractive by the aid of the band.

BURGLARY AS AN ART.

The Pen Again Shows That it is Mightier Than the Sword.

Fred. Wilson and Henry Mileson, arrested Saturday morning for vagrancy as a pretext to hold them pending an investigation, were let go this morning. They were put under bonds to appear later in the week, the intention being to drive them out of the city. They announced after they were let go that they would leave in a few days. The police were unable to prove that any of the burglar tools found belonged to either wilson or Mileson, but when Ross, now serving a month for carrying concealed weapons, is released he will be charged with the ownership of some skeleton keys which were found on him. The police learned a new wrinkle in key work from Ross. On him was found a pen holder and pen, with the latter broken off well down. The pen is inserted through the key hole and over the end of the key bar and on to where the broken pen clutches the bar of the key, then if the lock is an easy one the key can be turned as neatly as you please. The device has several things to recommend it from the burglar's standpoint. It is an excellent substitute for nippers, does not excite suspicion when found, and can be easily made. Most pen points are cut by the manufacturers to give them flexibility, at the very point where the new burglar would break them to turn out a home made "nippers." The police found one on Ross, and being suspicious, figured out the uses to which it could be put. Thus again does the pen demonstrate its mightiness over the sword.

The saws in the tools discovered are the best the local police ever saw. They adjusted them to a holder on Saturday and experimented on some pieces of iron and steel with remarkable results. Two of them taper down to a point as fine as a needle, and were evidently designed for work in very limited space. It is believed that they belonged to Wilson, but that could not be proven. Ross has been endeavoring to have his fine of $25 paid that he may avoid serving a month, but so far has not been able to accomplish that result, and very likely will not be able to.

—Yesterday the harvest thanksgiving services at St. Barnabas church were of a specially festal nature. The Rev. J. B. Haslem officiated at all the services, and the congregations throughout the day were far above the average. At evensong the church was full and the services were very interesting. The processional hymn was "Songs of Praise the Angels Sang." The service was fully choral, and the "Magnificat" and "Nunc Dimittis" were to settings by Kimmins in E flat. The anthem chosen for the occasion was the Rev. E. V. Hall's "Praise, O Praise Our God and King," and included a solo for tenor (Mr. Godson), solo for bass (Mr. Allnut) and a quartette sung by Master C. Loat (treble), Miss Whittaker (alto), Mr. Wieler (tenor) and Mr. Elkington (bass). The sermon by the rector was an eloquent exposition of the teaching of the church. The special music was well rendered and great credit is due to Mr. Raynes, the choirmaster and organist. The recessional hymn was "Brightly Gleams Our Banner," and was heartily sung by both choir and congregation. Altogether the festival has been a great success. The children's harvest thanksgiving will take place on Sunday next at 3 p.m., when it is expected that the Bishop of the diocese will deliver an address. The decorations will remain during the week and be renewed for next Sunday's services.

—Two Royal Artillerymen, whose names were not learned, had a narrow escape from drowning yesterday, outside of the harbor, while trolling for salmon. Having hooked a large fish, the boat was capsized in attempting to haul it in, and but for immediate assistance rendered by Henry Farrar, watchman on the Agnes McDonald, who was passing at the time, the men would have had great difficulty in getting ashore, with the chances in favor of going to the bottom. They lost nothing save the fish and the line.

—A lot of piping, tools and rivets arrived from California last night for the Horsefly Hydraulic Mining Co. They will be shipped to Cariboo this week.

—A meeting of the board of directors of the Jubilee Hospital has been called for this evening at 8 o'clock.

SATURDAY'S CRICKET MATCH

Victoria Cricketers Defeated by All-Oregon at Portland on Saturday.

Opening of the Season for Hunting Grouse and Pheasants—Sporting News.

The All Oregon eleven defeated Victoria at the Multnomah Amateur Athletic ground, Portland, on Saturday last by five wickets, after one of the most exciting finishes ever seen on a cricket field. The Multnomah ground is composed of beaten clay and the wicket plays very fast but perfectly true, and Captain Pooley after winning the toss for Victoria decided to bat first. The result was not encouraging as Victoria compiled but sixty runs. Drake, who made 14 in very good style, and A. T. Goward (not out), were the only two who batted with their usual confidence. Morley and B. Goward also got double figures, but the former excellent batsman was by no means at his best, and as his reputation had preceded him, great disappointment was expressed in the grand stand when he was bowled out by Lawrence. The latter is a slow bowler with a great command of the ball, breaking both ways, and he shows excellent judgment in varying his pace. Wilkinson, of the United States Navy, is also a very useful left-handed bowler, rather fast, and keeps a good length. All Oregon did not stand well, but Lawrence and Wilkinson made a stubborn stand, taking the score to 46 before they were separated. Goward finally bowled out Lawrence, who had made 22 in excellent cricket. Bell also proved troublesome and the score was taken to 98 before the last wicket fell. Being 38 runs behind and only two hours to play, nothing was left to Victoria but to hit up as many runs as they could in the shortest possible time, and to then dispose of their opponents in record time. How near they came achieving the task the score shows. Everyone hit at everything, but Smith and Morley, who made 41 runs in 22 minutes, were the only ones who hit straight, 63 runs being the result of 55 minutes batting. Wanting but 26 runs to win, the Oregon men had an easy task, and when the score was 20 for no wickets it looked like 10 wickets defeat for Victoria. But a change came o'er the spirit of the dream. Goward and Perry bowling with great determination sent man after man to the pavilion and 5 wickets were down for 21 runs, and the captain of the Oregonians looked anxious. With only five minutes to play the spectators greeted every run with a sigh of relief, and when within a minute of time Astbury made the winning hit, a mighty cheer told that cricket had taken a firm hold in the hearts of Multnomah athletes.

The defeated team were royally entertained by the Multnomah Amateur Athletic Club during their visit, and banquetted on Saturday evening at the Portland Hotel, at which Mr. H. E. Judge, president of the M. A. A. C. took the chair. The hope was fully expressed that in future the meeting would be an annual affair. The score stood.

FOOTBALL.

VICTORIA COLLEGE v. GUN ROOM OF ROYAL ARTHUR.

The Rugby season was opened on Saturday afternoon by this match, which proved to be very interesting to the many spectators who journeyed to the Canteen ground to witness it, and resulted in a win for the naval team by 6 points to 3. The game during the first spell looked very favorable for the College, who pressed their opponents very hotly at times, but the superior weight of the latter told towards the end of the half, which ended without a score for either side. In the second spell the Navy backs got in some splendid passing, the three-quarters Wigram, Shuter and Chance, being well fed by their halves, and each being thus enabled to make some good runs. Wigram was the first to score, grounding the ball between the posts, but the kick at goal was a failure. Shortly after this the College worked up to the Navy twenty-five, and Wilson by a good pass from Holmes, got over the line near the corner flag, but failed to convert the try. The Navy then rushed the ball up the field and Geo. Ward scored by a clever run, the kick at goal again being a failure. The College backs now made strenuous efforts to score, Green and Gamble each making a good run down the field, but both were well stopped by Gossett, and time was called shortly after.

YACHTING.

THE HALF RATERS.

Centre Island, N. Y., Sept. 30.—The international challenge cup offered by the Seawanhaka-Corinthian Yacht Club, of New York, for half raters, has been successfully defended and will remain on this side of the Atlantic until some other country sends over a faster boat than Spruce IV., owned and sailed by Mr. J. Arthur Brand, a clever sailor and a good game fellow, who came here from the Minima Yacht Club of England to capture the cup. The match was concluded on Saturday by the Ethelwynne capturing the final race, which consisted of the best three out of five races, sailed over the Long Island Sound course of the Seawanhaka club.

SATURDAY'S CLUB RACE.

The Daisy Bell won Saturday's club race. Her corrected time was 1.37. The Frou Frou was second, time 1:42, and Volage third, 1:58. It looked for a time as if the Frou Frou would pull up and win with her time allowance. In the half-raters race the Plunger was first, time 1:14; and Edith and Deborah second and third respectively. The Skipjack Imp, late of Westminster, sailed over the course with the yachts.

You Will Live to Regret it if You Pass This Without Reading.

It is an advertisement of FIBRE CHAMOIS but is straightforward and honest and means every word it says. If you wish to obtain double the warmth and satisfaction from your fall and winter clothing, have your coats and overcoats made up with an interlining of FIBRE CHAMOIS.

It will make them windproof. Bitter winter winds cannot penetrate, and cold raw days may be disregarded. It is light in weight, durable and not bulky, and, being porous, the natural moisture of the body is not checked.

It is so inexpensive that your tailor should charge nothing extra.

All this applies to Ladies' Jackets or Wraps or Children's Outer Garments as well.

NANAIMO.

Nanaimo, Sept. 30.—The defeat of Ald. Davidson's by-law on Saturday to purchase the present water works, was a surprise to a great many. There was a comparatively small vote polled, only a total of 280. Out of this number 160 voted aye, 116 no and four spoiled ballots. As the vote called for a three-fifths majority the measure was defeated through the want of eight more votes.

It is now generally believed that Nanaimo has seen the worst of the business depression, and that with the beginning of October a change for the better will take place.

A party consisting of several local men, who are interested in Texada, and William Woodruff, of Chicago, left on Saturday night for that island.

About the time the Vancouver Beavers should have arrived here on Saturday, Secretary Norris received a wire saying they had decided not to come. The home team are incensed at the action on the Beavers' part, especially as the former have been put to quite a lot of expense in expectation of the match taking place on Saturday.

A large number from this city will take in the agricultural show at Comox on October 3rd. It is understood the Joan will take an excursion party up.

WELLINGTON.

Magistrates Matheson and Bickle had two cases before them last week. One was for selling liquor to two dusky damsels of the Mudge tribe, and the other was a case of assault.

Mr. William McAllister, prospector for the Wellington Mining Syndicate, has again had the misfortune of having his leg injured, thus rendering him unfit for service for some time.

The people of this town miss from the streets the beaming countenances and pleasant faces of the Miss Burns and Edwards, they having left for their homes, where they will remain during the time school is closed.

Sixty-five farmers of the district of Nanoose have given notice through the press and otherwise that they will have no hunting on their grounds.

On October 20th, the anniversary service of the Presbyterian church will be celebrated, Rev. W. Leslie Clay, B. A., of Victoria, will preach at both morning and evening services, and the Rev. D. McRae, of Nanaimo, in the afternoon. On the Monday following a social and supper will take place in the Forester's hall.

The very beautiful dedication festival of St. Matthew's church was celebrated on Friday last. Celebration of the Holy Communion was at 8 a.m., and choral evensong at 7:30 p.m., with sermon by the Lord Bishop of Columbia.

The measles have been gradually spreading here for some time, and owing to their becoming epidemic it was thought advisable to close the schools for a short time.

The religious controversy which has been caried on for some time in the Wellington Enterprise, was brought to a close by Mr. Moffat in the last edition of the same, with a loud blast of trumpets and a large number of accusations, which show hardly a nice conception of fair play, at least in the British sense of the term. It is hardly manly to shoot a man with his hands tied.

WHITE VALLEY.

From Our Own Correspondent.

At a meeting of the Farmers' Alliance of White Valley, held at Lumby on the 10th inst., the following resolutions were adopted:—

1st. Resolved—That the provisions of the Land Act Amendment Act, 1895, as contained in public notice of Mr. Gore, Deputy Commissioner of Lands and Works, under date of August 8th, 1895, are detrimental to the interests of the people of the province, and that it is impossible for the great majority of pre-emptors to meet with their requirements.

2nd. Resolved—That it is the opinion of this meeting that the notice of Mr. Gore, Deputy Commissioner of Lands and Works, is detrimental to the best interests of this district, and would be the means of driving a great many of the best class of people out of the province.

The following motions were carried:

1. That copies of the resolutions be sent to the principal papers in the province.

2. That a copy of these resolutions, accompanied by a petition, be sent to His Honor the Lieutenant-Governor, said petition to pray for a suspension of the Land Act Amendment Act, 1895, as contained in Mr. Gore's notice, until next meeting of the House.

KAMLOOPS.

Inland Sentinel.

Owing to the absence of the mayor from the city, without having appointed any alderman to act in his place, there is no one authorised to sign cheques and city payment has been stopped. The city staff have not received their salaries for August yet.

Two prominent Kootenay mining men, S. J. Humphrey and W. McIntire, came in last Friday and since have spent the time prospecting across the Thompson river between the ferry and Tanquille. People passing were not so considerate of their feelings as to restrain themselves from jeering at the fools, as they thought them, hammering away at such barren looking rock. These men knew what they were doing, however, and on Wednesday they located three claims. They went back again to investigate their properties further and have been blasting away to see what underlies the capping. The surface rock is an iron sulphide much resembling Trail Creek ore and assays are said to have been obtained as high as $100 in gold. The vein is about eight feet wide and can be distinctly traced on the claims recorded.

NICOLA.

Inland Sentinel.

Snow fell last week in some parts of Nicola, doing damage to crops not yet harvested.

A fine new hotel has been erected by Mr. Howse in place of the building burned down some time ago, and is to be formally opened the latter part of the month with field sports on a big scale.

Court was held a few weeks ago in the court house by J. P.'s Clapperton and Sutton as to some misdemeanors on the trail to Granite and Princeton, connected with selling liquor without license. The chief offender was fined with costs in the neighborhood of $190. There was a warrant for J. Thornton, late bartender in Nicola, but he suddenly disappeared and his family followed. Other cases were dealt with and the parties taken by officer Gillie to Kamloops.

Rivers and creeks are full of white salmon coming up to spawn. They are much battered and bruised.

Report comes from Granite that the Capt. Scott's claim has started washing, the recent rains having helped the water supply. M. Stevenson's claim at Granite is making headway but is not yet ready for washing.

Now and again a word is dropped about the railway and coal mines. Nobody seems to know whether it is any good hoping, though it is said movements are being made by the company to secure an extension of time in which to complete the work.

THE "FIVE WORLD" SERMONS.

World No. 2—The Social World, or Our Relation to One Another.

Last evening Rev. S. Cleaver continued his series of "Five World Sermons" in the Metropolitan church. The interest taken is manifested by the large congregations which gather, all anxious to hear the series without a break. The reverend gentleman opened his sermon by remarking that for a text he would go back to the very commencement of the world's history, showing how early God sought to teach this lesson. He would take his text from Gen. iv., v. 9; "Where is Abel thy brother," and he would say that we each might take the application to ourselves and place our own name in the place of that of Abel. Some friend a short time ago sent the preacher a large picture of the Royal Family. The central portraits were those of our Queen and Prince Albert, and grouped around were the photos of the several members of the royal family. It made a very beautiful picture, and one which he prized greatly. Now he had nothing whatever to say against the grouping of that picture, for the British nation would have been in far better circumstances to-day had such a sovereign as Her Majesty always ruled over it; but what he particularly wished to draw attention to was the fact that that was an exclusive group; no one but members of the royal family could figure in it, no matter what their financial or social standing. How different to another picture he could imagine in which the central figure was that of the Sovereign of the universe, and grouped around Whom was a countless throng—many without pedigree or acknowledged social standing. Someone from the outside presses forward to that central person and says "Thy brother and Thy mother are without and wish to see Thee." He turns and replies: "Who is My mother and My brother," and adding with beautiful emphatic earnestness, that which is the key-note of His existence, "Whosoever doeth the will of My Father is My mother and My brother." The very same artist that painted the glorious sunset of an hour ago painted this picture. The scene is on the road to Jerusalem, and there is a naked man left almost dead by some robbers. Just passing along come a priest, and looking over at the man says: "He is no relative of mine—he is nothing to me;" so passes on the other side. A Levite, passing, looks over and dressing his garments closely about him says: "It is no business of mine: I have no business with him," and passes by. But the sound of hoofs is heard and a rider draws near, dismounts and goes up to the injured man, who looking up, seeing the face of a Samaritan, says: "I have no claim upon you, leave me." But no, the Samaritan pours oil into the wounds and strengthens him with nourishment; places him upon his own steed and takes him to a place of safety and rest, with the assurance that he will pay the cost of entertainment. In truth we might see in this Samaritan the face of the Son of God, as he declares thou art my brother," and ringing down through the centuries comes the stirring command, "Go thou and do likewise." God made of one blood all nations of the earth, and hence all men are linked together in a common brotherhood. A good many people try to ignore this eternal kinship, this common relationship, and build up guilds of certain classes. These guilds are numerous, but a few might be cited. Take the guild of the aristocracy. Only those of acknowledged high birth could find admission. Men of low birth were shut out entirely, and in the guild of the rich no poor man could hope for admission. Indeed, even a rich man if he became poor by turn of fortune would be excluded. Again there is the guild of Learning, where only those of high intellectual attainments are recognised: the illiterate man can have no place there and will have to get out. Even poverty may congregate and mass themselves against their rich brethren. Any and all of these are out of harmony with the universal brotherhood taught by our Saviour, the King of Kings, who never despised a brother. It is useless for a man to declare that it is none of his business what are the circumstances of his brother. Some day comes the question to everyone, "Where is thy brother?" and the Lord will teach him that it is his business to know.

After describing the circumstances of the death of Abel, the preacher continued by saying that he thought the Lord might have pardoned Cain for the murder of his brother Abel had he not denied his responsibility; and notice how the punishment fits his crime. Cain had declared his solitary existence and he was punished by it being made a fact. Banishment: no punishment can be greater than that of solitary confinement. Better that we were dead than to live all alone in the world. They tell us that few prisoners can bear for long solitary confinement. Dives did not consider the poverty of Lazarus any of his business. He did not drive him from his door, but just gathered his skirts about him and passed him by. Had he heard a voice saying "Oh, Dives, thou hast this day severed thy relationship with Lazarus; there is now a gulf between you," he would have replied that he was perfectly satisfied to be separated. But after both had died, and Lazarus was safe in Abraham's bosom, Dives would have liked to have joined Lazarus, but was reminded of the great gulf fixed. Who made that gulf? Dives made it. He made it that day he said Lazarus was nothing to him. The churches these days pay much attention to the spiritual condition of the poor, but little if anything, is done toward looking after the rich. Now, the fact is that of that class called the upper ten, the representation in the churches is very poor. You say it is none of your business, but you cannot shake off the responsibility because they are richer than you are. Where are these people to-day. Many are out hunting or fishing, and otherwise amusing themselves. Have you ever gone to them—these rich brethren—and pointed out the evil of their ways? Again there are those who are poorer than you. Where do they spend their Sundays? Passing by back doors into saloons, or even worse places. Have you ever approached them as brethren and urged them to turn? Does your employer curse or profane the name of the Lord? He couldn't say he has never been warned if you were to say, "Sir, I wish you wouldn't." On the other hand the same applies to the rich and the employers of labor. Do you ever manifest an interest in the welfare of those who work in your shop. "Where is your brother?" No use saying "I don't know." It is your business to know, and if you don't God will settle with you. Where is the man you employ and pay wages so small that he can't support wife and children? It is your business to know how he manages, and God will hold you responsible.

There are hundreds inhabiting cabins in this city who are never approached by their brothers to spend an evening in their homes. One man in the city had lived here two years before anyone had asked him to spend an evening at their homes. The penalty may come upon us when our loved ones are away from home and no one asks them to share the pleasures of their fireside. Some people congratulate themselves on not being able to associate with the lower herd. This is born of ignorance. Conceit is always a sign of ignorance and little minds.

This social world takes us all in and we are all responsible. When on the great judgment day even on our social relation will depend our eternal destiny, as is proved by the glimpse we have of the great companies ranged to the left and right of the throne. When the judge shall turn to those on his right and say: "was sick and in prison, and ye visited me," and to those on his left "Forasmuch as ye did it not unto the least of these, ye did it not unto me. Depart ye cursed."

—"For years," says Capt. C. Mueller, "I have relied more upon Ayer's Pills than anything else in the medicine chest, to regulate my bowels, and those of the ship's crew. These pills are not severe in their action, but do their work thoroughly."

—The sale of land for taxes will take place on Tuesday morning at 11 o'clock at the city hall. During the sale the treasurer's office will be closed.

CANCER ON THE LIP

CURED BY

AYER'S Sarsaparilla

"I consulted doctors who prescribed for me, but to no purpose. I suffered in agony seven long years. Finally, I began taking Ayer's Sarsaparilla. In a week or two I noticed a decided improvement. Encouraged by this result, I persevered, until in a month or so the sore began to heal, and, after using the Sarsaparilla for six months, the last trace of the cancer disappeared."—James E.
